

## **PIVOTAL EDUCATION**

BEHAVIOUR, SAFEGUARDING, TEACHING & LEARNING

### **Tracking a Child's Behaviour**

Contributed by Paul Gilbert

Age: Year 5, but could be used for any year group.

This resource is to be used to track a child's behaviour within lesson and at break. The end of the day a comment can be made by adult of overall behaviour throughout day. This gives communication between parent/guardian and teaching staff on a daily basis.

*All resources in the "Contributions" section of our resource bank have been submitted by delegates on our Taking Care of Behaviour Online course. For more information about this practical, self-paced course, please visit*
